When Unexpected Catastrophe Comes

EVERY SECONDS MATTER

Lithium-ion Technology is
EVOLVING

From handheld devices to EV fleets, modern power requires specialized protection. Is your fire safety keeping up?

The First Lithium Fire
Extinguisher In The World

Lithium Fire Killer Hartindo AF31 is a multi-function, eco-friendly extinguisher that handles it all. From common paper fires to high-stakes lithium battery blazes.

Classes: A, B, D, F/K, & L.

Benefit: One tool for every emergency.

Certified: lab tested

The Heavy-Duty Armor Built to Withstand the Extreme

Durability

Resists up to 1600°C and can withstand 1100°C for 50 hours.

Reusable

Rated for 300-400°C exposures. Can be cleaned and reused up to 6 - 7 times.

Certified

ASTM Tested.

XCAP
BY LESSO

Breath Safe. Escape Safely.

In a fire, smoke is the silent enemy. This mask filters carbon monoxide and toxic gases, giving you the clear air needed to escape safely.

The Invisible Guard

Advanced anti-fire coating with "**Thermafrost Technology**" that will be applied by our experts to prevent fire from spreading from the moment the first spark starts.

Application

Applied via specialized jet-spray.

Range

Broad range of application from products and furnitures to construction structures.

Safe & Long Lasting

Eco-friendly, high-tech protection, and zero-toxic footprint that will last for years.

Note

Requires a site survey for custom application.
